

The Investigation Workbench — System Context (C4 Level 1)

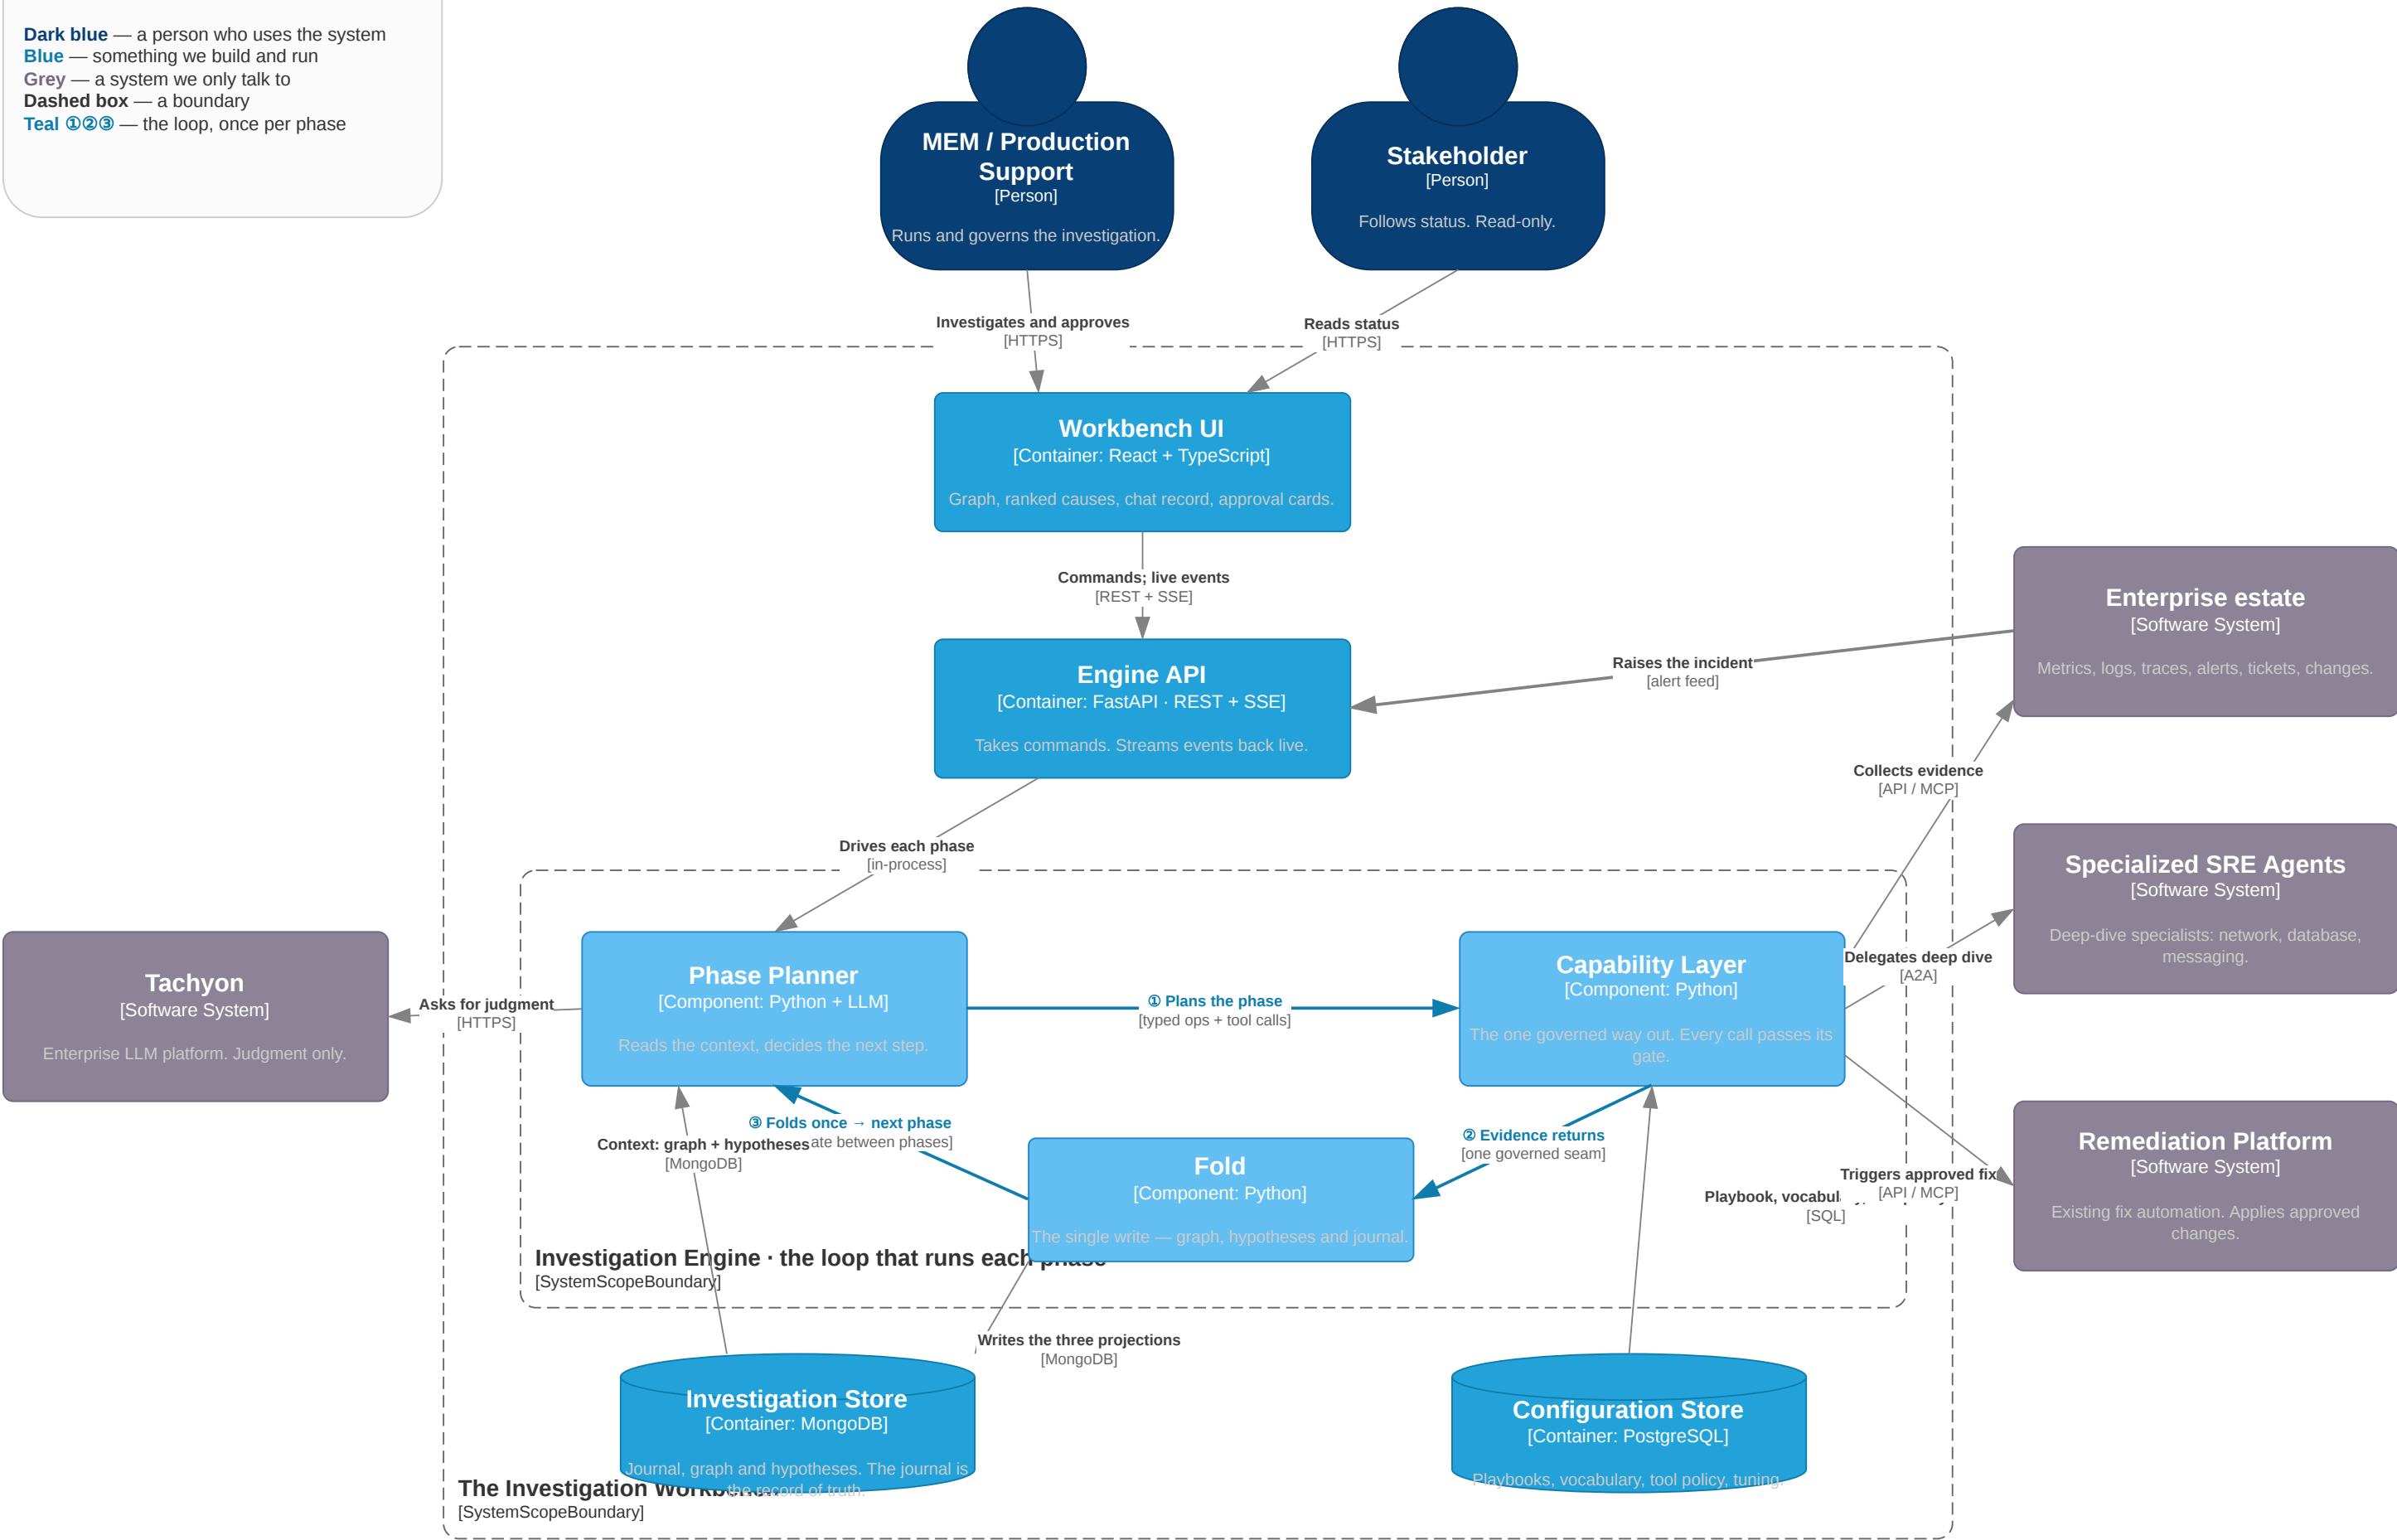

The Investigation Workbench — Containers (C4 Level 2)

One loop per phase · one governed way out · one write.

How to read this

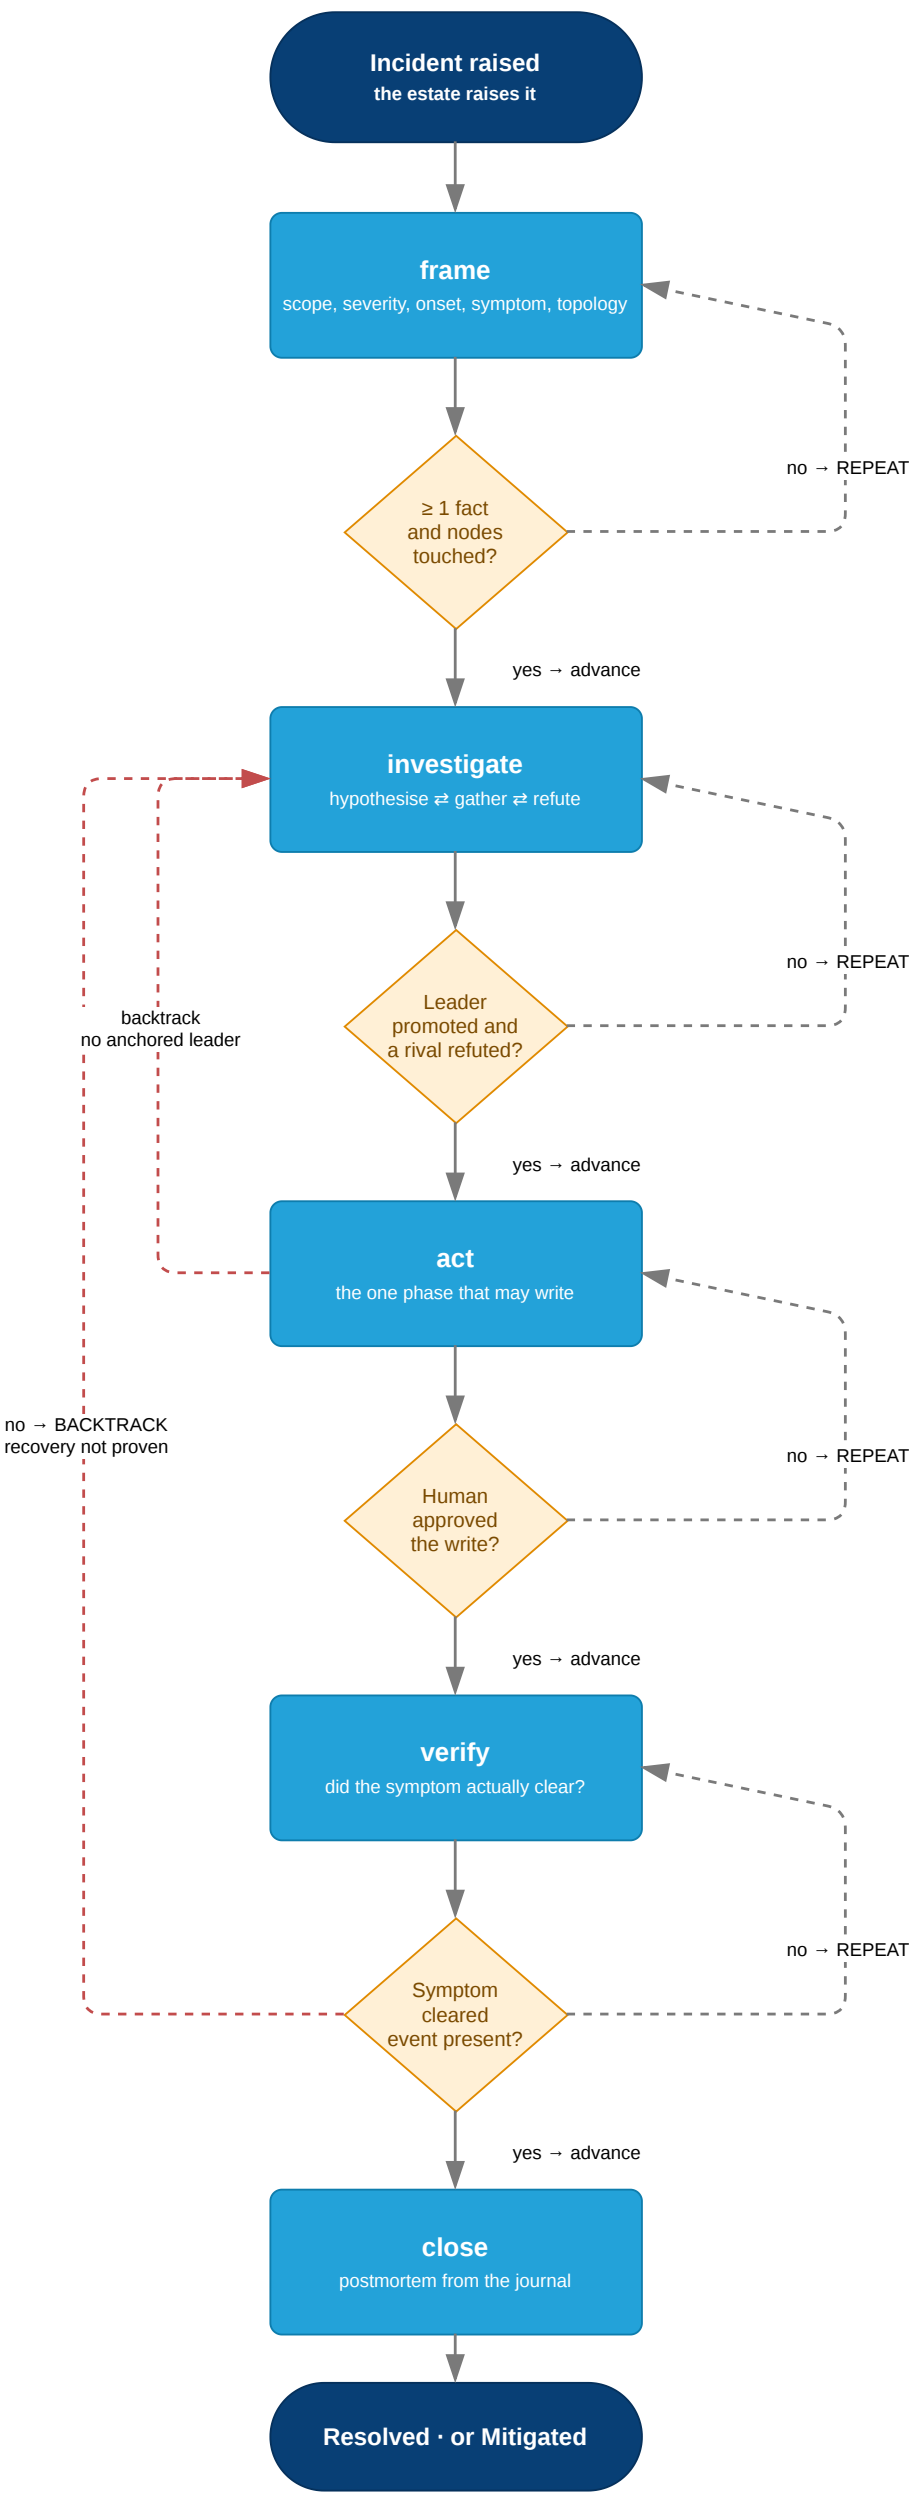

Dark blue — a person who uses the system
Blue — something we build and run
Grey — a system we only talk to
Dashed box — a boundary
Teal ①②③ — the loop, once per phase

A Fresh Incident — the Governed Flow

Expands C4 Level 2. Every gate below is a predicate the engine actually evaluates before a phase may end.

① The five phases — and what must be true to leave each one

② Inside any one phase — the loop that runs until the gate is satisfied
